SLIP-STOP-GUARD *and* SLIP STOP GUARD JR.

Blue Edging Enhancement Tape

DESCRIPTION: **Slip-Stop-Guard's** are a round blue edging enhancement tape designed to protect the back side of all lenses from the edger chuck and improve chuck friction. It removes cleanly after use, leaving no residue. Slip-Stop- Guard's reduce lens slippage and prevents lens scratching in the edging process.

Slip- Stop-Guard's are a factory die cut edging enhancement tape supplied with their own dispensing carton, proving economy, efficiency and improved quality to the edging process.

APPLICATIONS: **Slip-Stop Guard's** are placed on the back side of all lenses before edging. Remove edging enhancement tape after completion of the edging process. Lenses are ready for additional backside coatings or mountings.
