WRAPPER TAPE • CLEAR

Poly/Wax Blocking Tape

DESCRIPTION: Specifically designed for use with Gerber's Step One Blocking System. WRAPPER TAPE protects lens surfaces from scratching and speeds the deblock, clean up process. The uniform polymer chemistry of WRAPPER TAPE controls the bonding of Gerber's Free Bond blocking material ensuring consistent processing results with all optical lens types.

WRAPPER TAPE • Clear is coated with a special optically transparent adhesive for improved automated prism and Rx axis reading. A high quality silicone coated release liner protects tape prior to application.

APPLICATIONS: WRAPPER TAPE • Clear

Designed for use with all surface tape applicators.
